

# FIN-NOR<sup>®</sup>

HIGH-TECH PRODUCTS OF UNCOMPROMISING QUALITY WITH A LONG TRADITION FOR USE IN EXTREME SITUATIONS. WITH ITS ROOTS IN BIG GAME ANGLING, TODAY'S PRODUCT LINE BOASTS OPTIMAL PRODUCTS FOR A RANGE OF OTHER FORMS OF SEA ANGLING, WHICH WILL ALSO PROVE POPULAR WITH FRESHWATER BIG SPECIMEN HUNTERS.

★ ★  
FIN-NOR  
**Marquesa**  
2 Speed

**BIG-GAME SPRINTER**

**New: Sizes 40 and 50**

The Fin-Nor "Marquesa-2-Speed" multiplier was crowned best new multiplier reel at the EFTTEX European fishing tackle trade fair in Amsterdam in June 2011, where it was also presented to the public for the first time. The reel, which is CNC-machined from an aluminium block, impresses with its high gear ratio but can also be used in its low-gear-ratio second speed for heavy duty requirements. Such requirements are also supported by the CNC-machined, over-sized gears and the drag with carbon discs as found in really large big-game multipliers. Overall, the reel can create up to 50 pounds of drag pressure. At just over 800-950 grams in weight, the Marquesa-2-Speed is best suited to stand-up fishing and can be used for various other sea angling techniques. Packaging this technical marvel in eye-catching silver and gold is sure to assist its popularity. Sizes 40 and 50 also available with T-Bar.

**Standard features**

- Precision-machined from 6061-T6 aluminum
- Adjustable lever drag with carbon drag discs
- Fast 6.1:1 or 5.2:1 Retrieve Ratio
- Second power speed with 3.1 : 1 gear ratio
- Ergonomic crank handle

★ ★  
FIN-NOR  
**Marquesa**

**PRECIOUS GEM**

**New: Sizes 40 and 50**

The ultimate offering of precision, strength and refinement: Marquesa is ideal for fishing the new, thinner braided superlines in a platform design that is lighter, faster, and stronger than anything you've ever seen on the water.

Marquesa is precision-machined from 6061-T6 aluminum, and features one of the strongest drag systems ever put into a reel — stronger, in fact, than many "international-type" reels that are much bigger and heavier.

The Marquesa series comes in two models types: a topless model for easy spool access and control, and a model with a top bar (T) that kite fishermen will especially appreciate, as well as the dial that allows custom adjustment of clicker tension. The top bar models (MA20T to MA50T) are perfect for challenging sailfish and the techniques needed to catch them.

Marquesas are the perfect reels for tournament fishing or stand-up fishing with newer, stronger lines and fishing techniques. Marquesa is big fish stopping power in a very refined package.

**Standard features**

- Precision-machined from 6061-T6 aluminum
- Adjustable Carbon-fibre drag system
- Fast 6.1:1 or rather 5.2 : 1 Retrieve Ratio
- Dial-adjustable clicker tension
- Ergonomic crank handle

# FULL POWER FIN-NOR

You don't name a product Santiago® and fill the biggest shoes in the Fin-Nor product line without being totally ready.

It is with total respect for the history, traditions and excellence of this brand, and with the greatest appreciation for the role that Fin-Nor trolling reels played in writing the history of big game fishing, that we took time and diligence to the extreme in designing Santiago®.

The flagship of the Fin-Nor brand, Santiago® is a bold testament to modern technology's greatest advances in fishing reel materials and design, yet leaves no doubt whatsoever as to which family it belongs.

**Standard features**

- Fully machined one-piece aluminum frame
- Forged aluminum spool
- 4 Ceramic / hybrid ball bearings for support and strength
- Push-button and dial-release two-speed shift system
- Classic Fin-Nor gold-anodized corrosion-resistant finish

Code	Model	M/BS	Gear Ratio	Retrieve	Weight	Ball Bearings

W = wide spool

The Santiago® drag system allows you to fine-tune your settings to your line strength and type of fishing. Fin-Nor recommends that customized drag adjustments be done with the push-button drag lever in the "FREE" position.

The drag lever offers a wide range of drag and activates your custom "STRIKE" setting, with additional strength all the way to the "FULL" setting.

The Santiago® drag can be fine-tuned over a wide range. It is designed for incredibly smooth performance from free spool all the way to total lock-down if desired.

An easy turn of the dial allows the reel to switch back to high speed for quicker line pickup

The simple push of a button puts the reel into low gear, offering you all the power you need, when you want it, to fight big game fish.

# READY, SET, GO!

★ ★  
FIN-NOR  
**Sportfisher  
Lever Drag**

The Fin-Nor Sportfisher Lever Drag series has been specially developed for fans of lever drag reels. Designed to combine the legendary Fin-Nor quality with a lightweight reel and to be affordable to Fin-Nor newcomers.

With both variants available in 20-size or 25-size spools, these lever drag reels offer sufficient line capacity for a variety of uses on the high seas, e.g. in Norway, Iceland or around the British Isles – or even in the Mediterranean.

**Standard features**

- Ergonomic handle and stainless steel components
- Soft lever drag made from 10-layer carbon and stainless steel drag discs.
- Solid, 1-piece, fibre-reinforced plastic frame
- Cold-forged aluminium spool
- Heavy duty harness rings
- Multistop anti-reverse clutch

# READY FOR THE FIGHT

★ ★  
FIN-NOR  
**Sportfisher  
Star Drag**

The Fin-Nor Sportfisher conventional series was created for anglers wanting a versatile, large-line-capacity, strong and durable reel. With a 30-size or a 50-size spool, these star-drag reels carry plenty of line and are strong enough to be used for any type of blue water fishing.

Built for the value-minded angler who demands Fin-Nor's legendary quality, Sportfisher creates an opportunity for those who may have never previously fished with Fin-Nor. We used the latest materials, and built in all of the features that today's anglers demand.

Sportfisher is the perfect reel for summer fishing, party boat fishing, or tournament fishing. Easy-to-use and durable. Sportfisher reels are sure to become mainstays on just about every type of fishing boat.

**Standard features**

- Ergonomic handle and stainless steel components
- Oversized heavy-duty carbon fibre drag system
- Solid 1-piece aluminum frame
- Huge bronze and stainless gears
- Huge, heavy-duty harness lugs

# FIGHTING MACHINES

When it comes to landing truly giant fish, delicate reels are not the order of the day. Lightweight reels and smooth gear actions are just not on the shopping list. What the angler needs is a reel that will never let him down. The Fin-Nor Offshore is the fighting machine that ticks all the boxes. This is no fashion accessory, it is a no-frills powerhouse.

**Standard features**

- Strong aluminum body, sideplate and rotor
- Machined stainless steel drive and pinion gear
- Stainless steel center shaft
- 4 Double-shielded stainless steel bearings
- Forged aluminum spool
- Oversized multi-stack Offshore drag system
- Powerful 4.4:1 gear ratio respectively 4.7:1

**OVERSIZED MULTI-STACK OFFSHORE DRAG SYSTEM**  
 Fin-Nor's Offshore® spinning reels feature up to 10 carbon fibre, aluminum and stainless steel drag washers that are designed specifically to handle the ocean's biggest fish.

# THE FREE-SPOOL MASTER

## FIN-NOR Sportfisher Teaser

For many types of fishing with natural baits, run control reels are sheer poetry. Now Fin-Nor present the Sportfisher Teaser, available in either size 60 or 80. The baitrunner is adjusted at the rear of the housing. Carp, pike and catfish anglers will quickly take the Sportfisher Teaser to their hearts, as surely will many a sea angler.

### Standard features

- Metal body
- Forged aluminium spool
- Front drag with Magnum carbon drag discs
- 5 stainless steel ball bearings
- Continuous anti-reverse
- Super-hard brass transmission components
- Over-sized handle knob for optimal power

# THE CHAMPION OF THE COAST

## FIN-NOR Inshore Spinning

A supreme spinning reel tailor-made for using on the sea with salt-water-resistant components throughout. Highly robust design that can withstand use with braided lines for months on end. In a fight, the Inshore's front drag, with Magnum carbon drag discs, means the angler always has control. The spool has a special anti-slip core meaning braid can be directly wound onto the spool.

Photo: Erich Grohe

### Standard features

# THE WORKHORSE

The Fin-Nor Sportfisher has earned its rightful place in the Fin-Nor range of fixed-spool reels. Available in six sizes, this workhorse covers a range of applications in sea angling. The reel contains no delicate components, and comes with an anti-reverse that cannot be disengaged. Excellently suited to catfish angling.

**Standard features**

- Strong aluminum body, sideplate and rotor
- Continuous anti-reverse clutch
- 4+1 Bearing performance
- Smooth, front-adjustable carbon-fibre drag system
- Forged aluminum spool
- Electrostatic multi-layer corrosion protection
- Die-cast aluminum crank handle

RAINER KORN TRAVELLER VALHALL

## RAINER KORN EDITION

20 YEARS OF SEA FISHING EXPERIENCE

For me, it is the realisation of a dream: To create a top-class collection with a legendary sea rod manufacturer. Fin-Nor is without doubt one of the biggest names in sea angling – renowned anglers of the early 20th century trusted in their masterpieces from the USA. Together, we have created a collection of high-quality, special rods with a passion for detail, which every serious sea angler is sure to fall in love with. Refined components such as the ALP-S reel holder and rings add that touch of class; an elegant, reserved design for an understated finish. My dream has come true. And now you too can live the dream – with the “Rainer Korn” Edition rods from Fin-Nor.

Tight lines & happy fishing on all seas

*Rainer Korn*

### Rainer Korn Boat

Modern boat rods must satisfy a variety of demands: They must be light, yet powerful and sensitive enough to indicate bites and allow for an enjoyable fight. In conjunction with Fin-Nor, it has been my pleasure to achieve such a fantastic combination in the “Rainer Korn Boat” rods. When you see the name Rainer Korn on such a rod, you know that only the best materials have been used including ALPS rings and reel holder together with a high-quality carbon fibre and metal cross butt. The two-

metre length is an optimal size – whether fishing from a small boat, larger vessel or a cutter. This is a boat rod that ticks every box for me: firm on the take but sensitive when it comes to bait presentation and the fight. The 20-lb version is perfect for fishing with heavy lures for cod, halibut or coalfish, or for light natural bait sport. The two heavier models, the 30 and 50-lb class, are unbeatable for fishing at depth for ling and cusk. The 30-lb version is also available as a 4-piece, 2.2-metre travel rod.

### Rainer Korn Valhall

I can only bow in reverence before this rod: so much power in such a slender design – it truly is a little masterpiece for large fish. Its casting weight range of 50 to 300 (!) grams has to be seen to be believed. The 2.2-metre Valhall is ultra-light and highly sensitive, meaning even 40-gram jig heads can be retrieved with perfect control. Should a 40-pound halibut come onto the scene, the Valhall displays its hard, raw

side: You would scarcely believe that this slim blank could harness so much power. However, that is exactly how I have designed it. You can fish with it all day without tiring. But at the decisive moment, it brings all the strength to bear that you need when a monster cod or halibut is tearing away at the other end of the line. The Valhall is also available in 4-piece travel format of the same length.

**Rainer Korn Sea Spin**

If you could only take one rod on holiday to Norway and you asked me to make a recommendation, the answer would be simple - the Rainer Korn Sea Spin with a casting weight of 40 to 120 grams. This optimal all-round rod is 2.6 metres long and has a refined yet powerful action. It is perfect for spinning for cod, pollock, coalfish and small halibut. Whether fishing with rubber fish, twisters, wobblers, pirkers or even light leger weights for flatfish, haddock or whiting, with the Sea Spin you are equipped for (almost) every eventuality. It is also an outstanding partner for pike and large zander sport. At 2.6 metres long it is ideal for fishing both from the boat and the shore. A genuine all-in-one rod that provides so much pleasure in the fight. For those travelling by plane the Sea Spin is also available in a 4-piece 2.2-metre version.

**Rainer Korn Sea Spin Light**

For fans of light spinning, the Sea Spin Light is a revelation: ultra-sensitive, incredibly powerful and the perfect length at 2.6 metres. With a casting weight of 30 to 80 grams, this fine little rod is ideal for light

spinning or pirkers for cod, pollock and coley. The rod also comes into its own with medium-sized halibut – in fact you may well have more fun and excitement than you could have ever imagined...

**Rainer Korn Sea Trout Spin**

For a long time I looked for the perfect sea trout rod – Fin-Nor have now made it for me in the Rainer Korn Sea Trout Spin - and the result is a force to be reckoned with. This 3.05-metre gem brings its sensitivity and semi-parabolic action fully to bear when it comes to playing fish large or small. The rod's powerful backbone can catapult wobblers and shore fishing spoons into the distance. A perfect rod for braided line fans. The high-quality, understated finish will accommodate any reel. I am certain you will be seeing a lot of this rod on the coast in the future.

OFFSHORE BOAT

OFFSHORE HARD WORK

OFFSHORE DEEP SEA

OFFSHORE UPTIDE

## OFFSHORE®

### Offshore Boat

A range of boat rods with removable handles, developed for light to moderate sport on the high seas, e.g. the Mediterranean or Norway. Strong enough to tame even the most ferocious quarry without a fighting chair. All models impress with their perfect fight action and first-class finish, including ornate and under-whipping of the robust rod rings.

### Offshore Hard Work

Equipped for big fish such as catfish, large cod and similar, the Hard Work offers all the advantages of a big fish rod. The uncompromising power, durability and naturally light weight of these rods provide all the ingredients to come out on top against large specimens. And the material itself will tame even the biggest monsters!

### Offshore Deep Sea

The rod for extreme deep-sea fishing, e.g. in Norway, where heavy weights are used and a normal boat rod is no longer up to the job. Combine an unbeatable carbon blank with the finest features and the result is an absolute gem for deep-sea fans.

### Offshore Uptide

Uptide rods are the perfect solution when using live baits and the angler wants to combine a powerful backbone with a sensitive tip for sensitive bite indication. Despite its bear-like strength, the Offshore Uptide impresses with its almost feather-light blank and separation into two pieces of equal length. Farewell to the difficulties of transporting standard uptiders with a long tip and short handle.

OFFSHORE DOWNRIGGER

OFFSHORE VERTICAL JIG

OFFSHORE SUPER PILK

OFFSHORE KVEITE INLINE

## OFFSHORE®

### Offshore Downrigger

Robust downrigger rod for targeting cod, sea trout and salmon. With sufficient power for when it comes down to it. Can also be used perfectly for fishing with a side planer.

### Offshore Vertical Jig

For speed-jigging! Ultra-light, short rods that punch above their weight. Originally only used in warmer climates such as the Mediterranean for tuna and similar, also perfectly suited to Nordic regions.

### Offshore Super Pilk

The trend in sea fishing is clearly towards lighter techniques with rubber fish etc. Fin-Nor has responded to this by offering the Super Pilk in two lengths and strengths. With an optimal firm action for precise bait control yet very light in the hand to allow long, comfortable sessions – and of course with bear-like strength for when the moment comes.

### Offshore Kveite Inline

This rod has been specially developed for fishing for halibut using rubber fish. The sensitive tip action allows lures of 200g to over 500g to be retrieved effortlessly before the uncompromising backbone shows its teeth. However, despite the power in the blank, the hammer-like runs of flounder are cleanly absorbed. This rod is a must for every halibut hunter!

Code	Model	Length	Sections	Line Class	Tr.-Length	Weight
<b>Offshore Downrigger</b>

1745 240	Offshore Kveite Inline	2.40 m	2	600 g	1.60 m	430 g

**Offshore Standup**

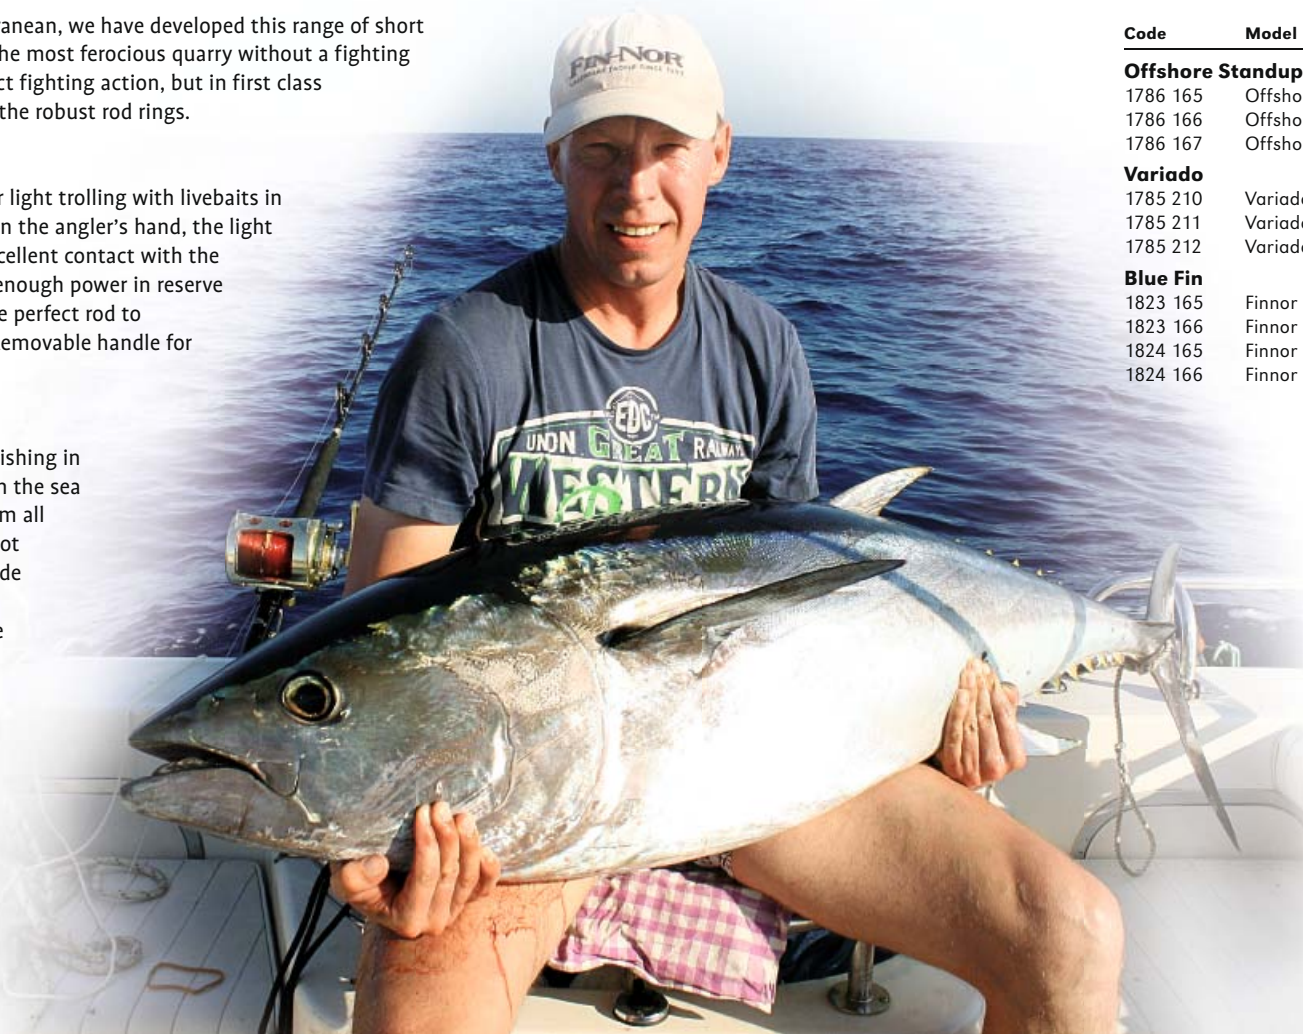

For light deep sea fishing, e.g. in the Mediterranean, we have developed this range of short stand-up rods. Strong enough to tame even the most ferocious quarry without a fighting chair. Their quality lies not only in their perfect fighting action, but in first class finishing with ornate and under-whipping of the robust rod rings.

**Variado**

Very light and thin rod specially developed for light trolling with livebaits in the warm waters of the Mediterranean. Held in the angler's hand, the light and progressive action of the blank allows excellent contact with the bait. Despite the thin blank, the Variado has enough power in reserve to handle a variety of predators with ease. The perfect rod to complement a Fin-Nor Marquesa multiplier. Removable handle for ease of transport.

**Bluefin**

The Mediterranean has seen a boom in tuna fishing in recent years as new European regulations turn the sea into the new Eldorado for trolling fanatics from all over the world. The Fin-Nor engineers could not resist the challenge of developing a tailor-made range of rods especially for this purpose. The new Blue Fin standup rods are available in the two most popular line classes (30 and 50 lbs). Each model is available either as a one-piece with Pacific Bay roller guides or with removable handle and ALPS wind-on roller guides.

# TYCOON BIG-GAME RODS

The name Tycoon is synonymous with the most significant big-game rods in the history of big-game angling. Alfred Glassel's Tycoon "Bimini King" rod and his 12/0 Fin-Nor reel still hold the world record for black marlin (1,560 lb) from 1953. Now the name is back in the Fin-Nor rod range complete with state-of-the-art innovations and optimum quality. In the tradition of its renowned predecessor, the completely re-developed Tycoon range has been designed for anglers who do not want to make compromises and who have their eye on records. Quality components such as AFTCO roller guides are implicit.

The range includes standup rods and trolling rods for use in a fighting chair, available with either straight or curved handles. The Tycoon Standup BigFoot rods are particularly appealing to the European market, coming into their own for tuna sport in the Mediterranean.

# RAINER KORN NORWAY RIGS

20 YEARS OF SEA FISHING EXPERIENCE

*Rainer Korn*

Scarcely any other professional Norway angler has accumulated as much experience in Nordland as I have. This has been made possible by my job as an angling journalist, book author and film-maker. I have attended countless seminars and events, gaining a wealth of experience. A long time ago, I developed rigs for Nordland anglers, who also include Yellow Reef and Iceland anglers. Together with Fin-Nor, I have now developed a range of high-quality and excellently finished rigs that should bring you closer to the fish than ever before. Here's to your success in catching ling and similar.

## Rainer Korn Jigger

The invention of the jigger heralded tough times for bottom feeders such as link, cusk, wolffish, conger, monkfish and halibut. The tantalising action of the phosphorescent floating device and the closely positioned hook (baited with a fish strip) are simply irresistible to the sea predators. An absolutely unbeatable lure that I have used throughout Norway with great success and that always throws up surprise catches. And it's so easy to use! Simply hook on the fish strip, attach the weight and present near the bottom off a moving boat. Available in two versions: with a size 10/0 single hook or size 8/0 double hook.

Code	Hook Size	Ø
4280 001	10/0	1.20 mm
4280 002	8/0	1.20 mm

In packs of 5

## Rainer Korn's Redfish Rig

Search rigs with several hooks are the best option when it comes to targeting redfish. With this rig, I have paid particular attention to the hook shape. It is a special hook also used by longline fishermen. The hooks hold securely in the fish's mouth and scarcely ever pull out. Tip: Bait every other hook with a deep-sea shrimp (cheap frozen from a Norwegian supermarket). Redfish love shrimps!

Code	Hook Size	Ø
4280 005	7/0	1.20 mm

In packs of 5

## Rainer Korn Jighead

Whether retrieved rapidly for coalfish and pollock or twitched along the bottom for cod and halibut, this jighead is like no other. The ultra-slim design offers less flow resistance and supports the action of the rubber fish. The special long-shanked single hook will hold any fish securely without fail. This jighead underwent five years of testing before I thought it had been perfected. And the fish just love it! Available in 5 weights from 60 to 300 grams.

Weight	red	black
60g	3186 060	3186 061
100g	3186 100	3186 101
150g	3186 150	3186 151
200g	3186 200	3186 201
300g	3186 300	3186 301

In packs of 5

## Ling Special Rig

This special rig will bring you up close and personal with ling and cusk – and fewer snags! The first side arm fishes some two metres off the bottom; precisely where most bites from monster fish occur. With one snag in most cases you only lose the lead – the side arm remains intact. The Ling Special Rig has already proven itself a thousand times over. Many guides in Norway swear by precisely this natural bait system. Why not fish like a pro?

Code	Hook Size	Ø
4280 004	8/0	1.20 mm

In packs of 5

## Rainer Korn S(urprise)-Rig

A rig that looks simple at first glance but has a certain something extra. The two ultra-sharp single hooks are not tied but looped onto side arms. This presents the hooked fish strips far more attractively than with a "fixed" connection. This rig is my S-system, my surprise rig, because it catches an incredible array of fish. It can be used at all depths of the water. The flashlight provides additional attraction, which fish further away find impossible to resist. Unbeatable for hake!

Code	Hook Size	Ø
4280 006	2/0	1.20 mm
4280 007	4/0	1.20 mm
4280 008	6/0	1.20 mm

In packs of 5

## Rainer Korn Big Bait Rig

My classic: This rig is so often imitated – proof alone of how incredibly successful it is. However, with the Rainer Korn Fin-Nor version you get none of the shortcomings of those imitations. Ultra-robust design with needle-sharp, robust hooks and 1.20-millimetre monofilament: This is a natural bait leader you can use without restraint. During my first years in Norway, I fished almost exclusively with this rig. Ling, cusk, monkfish, cod, monster haddock, wolffish, halibut – there is barely a fish that will not fall to this system baited with fish pieces. A must-have in any Norway lure box.

Code	Hook Size	Ø
4280 003	10/0	1.20 mm

In packs of 5

## Rainer Korn Halibut Lead Rig and Halibut Lead

When halibut are on the lookout for fresh meat, this rig comes into its own. It is based upon the Canadian salmon fishing method of "mooching". The flow-optimised special trolling lead causes the whole deadbait to tantalisingly stagger to and fro. The large single hook is movable allowing it to be adapted to the bait size. The robust treble also keeps a tight grip on "tail biters". When using this system with large coalfish (40 cm), you can always count on a bite from a monster specimen. Also unbeatable for large cod and big coley! The rig comes in 300 g as standard, with separate weights available in red or black at 300, 400 and 500 grams.

## Halibut Lead Rig

Code	Treble	Single Hook	Ø	Weight	Colour
4280 009	4/0	9/0	1.20 mm	300g	red
4280 010	4/0	9/0	1.20 mm	300g	black
