RADICAL BIG PIT

Vast waters and monster fish call for ultimate fighting machines. Now carp anglers can present their baits at remote locations. Also catfish anglers will have enough in reserve on the reel even if they have loaded an ultra thick line on their spool. The incredible line capacity makes anything possible for both sets of anglers. The powerful gears have to be experienced to be believed in the Big Pit – your future partner for extreme conditions.

STANDARD FEATURES

- Deep, Long cast aluminium spool
- Aluminium spare spool
- 6 high performance stainless steel ball bearings and 1 needle bearing
- Continuous anti reverse
- Gear ratio 4.5 : 1
- Balanced rotor, producing silky smooth action
- Large surface front drag
- Ergonomically designed handle knob for optimal power transfer
- Robust power gears
- External catch prevents bail arm from closing on the cast

RADICAL BR

The sister model to the Radical Big Pit for those who love run control reels. Carp anglers especially will appreciate the facility to switch flexibly between a fight anti reverse setting and a preset run control stoppage. To ensure optimal run control function the gears are equipped with 9 high performance stainless steel ball bearings and 1 needle bearing, which is a unique feature for reels of this size and price band. Countless 40lb+ fish will be caught across Europe next season with this reel.

RADICAL SERUM

Serum Reels will instantly impress every carp angler due to their extremely slow spool stroke. This creates perfect line lay across the wide spool and adds greatly to potential casting distances. In addition, the high-performance gears are designed for continued heavy-duty retrieval and the large line capacity is as expected from reels of this category.

STANDARD FEATURES

- 6 stainless steel precision ball-bearings
- Continuous anti-reverse
- Perforated aluminium Long Stroke™ spool
- Large-surface multi-disc front drag system
- Finely controllable run control system
- Stainless steel handle
- Large line guide with anti-twist system
- Extra slow, two-speed oscillation system for optimal line distribution
- Spare spool
- Titanium nitride line roller

RADICAL HEAT

With an established legendary status, our reel design is often imitated by envious competitors. The smoothness of the gears and run control facility of the current Radical Heat is practically unbeatable. With ten high performance ball bearings, the gears are luxuriantly equipped. All of which will ensure that the "Heat" success story continues in a wide range of uses both in carp fishing and other angling disciplines.

STANDARD FEATURES

- Oversized anti twist roller for line protection and reduced friction during fights
- Continuous anti reverse
- 10 ball bearings
- Robust, machine made gears
- Long cast aluminium spools
- Finely adjustable run control facility to suit every situation
- Multi disc drag system
- Electronically balanced lightweight rotor (LWR)
- Aluminium spare spool

HYPERCAST CARP RCF

Ultra modern and innovative run control reel range for carp and predator sport fishing, which is available in 5 sizes. Whether for moderate coarse fishing or extreme adventure you will be convinced that you have the right model to suit your requirements. The two largest versions have been fitted with worm shaft transmissions to handle the additional load. Many carp will suffer defeat at the hands of the powerful transmission and refined drag of this reel range.

RITUAL CARP

Carp angling is not a hobby but a way of life. The Radical Ritual series is the undisputed flagship in our range. The blank is extremely thin but has immense power and its action is unsurpassed. Casts of over 100 metres are achievable with ease. The blank is made from broad-cross carbon which also makes the rod extremely tough and durable. These rods were tested to their limits by the Radical Team but never failed. This groundbreaking series exceeds all the design aims of a top-quality modern specimen carp rod.

SERUM CARP

A rod series sure to get thousands of carp anglers' blood pumping. The parabolic yet super-fast action of these rods is quite simply perfection. The rods are made from high-quality carbon fibre and combine power and elegance. From stalking on rivers to the large lowland lakes of France, when it comes to the battle between angler and big carp, these rods will tip the scales in your favour.

RADICAL GUARDIAN CARP

RADICAL GUARDIAN CARP ORBITER

RADICAL OLD SCHOOL II

All rods

RADICAL GUARDIAN CARP

Powerful carp rods with a thoroughbred fast-taper action, as requested by many carp anglers. A range of rods designed with casting ability as major consideration. The rods are at their best on big rivers and vast lakes. With ease this rod can cast weights of 150 grams comfortably over distance of 180m. In addition, the guides have been modified to ensure that the 'line lay' produces maximum output when a powerful long cast is required. The rods are also equipped with 'Big Pit' metal reel holders.

RADICAL GUARDIAN CARP ORBITER

When you need a rod that can test the boundaries of casting, the 'Orbiter' with a length of 14ft / 4.2m and test curve of 3.5lb will be your perfect companion. No matter the water distance, this rod will be able to cast bait to amazing distances which your fellow anglers can only dream of.

RADICAL OLD SCHOOL II

The Radical Old School II is faster actioned, more durable and more stylish than its predecessor. The new Old School range is the creation of Quantum consultants Robin Illner and Stefan Seuß. The blank is made from a woven mesh material combined with high-modulus carbon fibre. The rod is fully parabolic and bends down into the handle yet has enormous power in reserve. The reel holder and SIC rings are of the highest quality - no rattling here! The Old School II is as solid as a rock and available now in 2.75 lbs and a powerhouse 3 lb.

RADICAL WARCHILD SPOD

RADICAL COMBAT CARP

RADICAL STIFF STICK

Designed primarily for boat fishing and short distance fishing from the water's edge, the 'stiff stick' is everything that you could hope for. The parabolic blank sensitively absorbs fights at close range and offers sufficient power in reserve to keep even large specimens away from obstacles. Its predecessor, the 'Crypton Slimline', was a huge hit in France with a test curve of 3.5 lb. Now available in a second, lighter and more sensitive model.

RADICAL WARCHILD

An incredibly slim carp rod for the price segment. The pleasant semi-parabolic action is as well balanced for casting as it is for playing fish. Limitless power without compromising on sensitivity.

RADICAL WARCHILD SPOD

Bait rockets fly towards the horizon when they are launched with the unique Radical Warchild Spod! The rod has a powerful 5lb test curve and a super-fast tip action for precision casts into the distance.

RADICAL COMBAT CARP

This introductory level within our 'Quantum Carp System' range are reliable workhorses made in carbon and offered at staggeringly low prices with 6 different models including 2 or 3 piece options. Predicted to be our best selling Quantum carp rod range for the coming season.

RADICAL "RUBBY DUBBY" BOILIE

Fishy, natural and coarse – everything a carp could wish for!

A bait for the future because naturalness counts and at Radical we only use natural ingredients. The success of our baits proves us right:

- Real fish- and shrimp chunks for the „crack and crunch“ effect
- Real fish oils for aroma and flavour instead of artificial fish flavourings
- Bait activates and immediately sets to work in the water since it contains no preservatives
- Top quality flours trigger a feeding frenzy in carp and ensure the bait is digested quickly

"RUBBY DUBBY" DIP

Natural ingredients were given top priority with the Rubby Dubby Dip. These ingredients guarantee rapid solubility at all temperatures and strong attraction even when the fish are far away. "Fishy" ingredients make our Rubby Dubby Boilie a bait for all seasons and the bait's attraction is multiplied by using the dip.

"YELLOW ZOMBIE" DIP

Our dipped boilies ensure even faraway fish are drawn to the bait thanks to the dip ingredients, which permeate the water perfectly in all temperatures. The natural fruity flavour triggers fish to feed, particularly in the summer months. Dipped baits are proven more successful on over-fished waters and in difficult conditions!

RADICAL "HOT CHILI" BOILIE

The Radical Hot Chili is helping carp anglers to make history. Our test anglers worked for over a year on this boilie. The magical attraction originates from a highly efficient formula of exclusively natural ingredients, rich in amino acids and essential fatty acids, as well as an ingenious mixture of various peppers and chilies which provides a natural aroma and a biological flavour enhancer, intensely stimulating the receptors in the carp's mouth. No artificial flavours or colours have been used to avoid jeopardising the natural active formula. As a result, the Radical Hot Chili provides both an all-season boilie and balanced nutrition for carp with optimal digestibility.

RADICAL "BLOODY CHICKEN" BOILIE

These "Radical Bloody amazing" boilies have been developed over countless hours of trials by Quantum Radical team members during the 2009-10 season. German carp ace Benjamin Gründer played a major role in arriving at the perfect blend of ingredients to catch the huge European carp.

The ingredients of Radical Bloody Chicken have instant impact with the rapid release of its unique set of attractants. In tests it was found that big fish immediately recognised its meaty flavour and there was no need to pre-bait or "train" fish onto this boilie!

The Radical Bloody Chicken is based around a top quality meat base mix, which both promotes digestion, and therefore stimulates more feeding. This contributes to its extremely high levels of attraction. Easily digested and relatively quick to break down in water, the boilie can be used all-year-round and loosed generously without polluting the water.

RADICAL "WHITE COCONUT" BOILIE

Enticing boilie developed by the Radical team in an extensive series of tests on the water. The biggest reaction was caused by the attractive effect of coconut oil, which has scarcely before been used in carp angling. It makes this boilie irresistible, particularly on heavily fished waters. The bright and natural colours are designed to make the boilie stand out and to allow the fish to find it quicker than dark boilies.

The ingredients of Radical White Coconut are easily digestible for carp, meaning the fish can eat continuously, which produces more biting activity and guarantees catches almost all year round.

ARTIFICIAL SWEETCORN

This artificial sweetcorn can be used directly on the hook or on the hair, where it will not be stolen by feeding fish. Amazingly, our tests showed that fish took the artificial corn as eagerly as the real thing. Obviously the appearance is more important than the texture. And if you are still not confident, you could always dip the artificial corn in a flavouring before use. Swells slightly.

ARTIFICIAL PELLETS

Exact replicas of conventional fishmeal pellets that are easy to hook or hair-rig without any preparation. Feed conventional pellets and use these as hookbait. Good for avoiding small nuisance fish and for fishing at long range. Will not dissolve so will always be on the hook. Can be re-used many times.

SAFETY ZONE

A mono leader used by carp specialists as a shock/protective leader. Offering the best and most secure combination of a monofilament leader with a braided mainline. The Safety Zone is perfectly suited to fishing over sharp mussels and stones, while the harsh edges of a river have no effect. Consisting of an abrasion-resistant braid, which is connected to the main line via a loop connection (ensuring minimum friction with the rings) and the mono leader. This is connected to the braid via a special splicing process, ensuring a binding strength of 100%. The perfect leader for those who leave nothing to chance.

RADICAL FLUORO CARBON

Fluoro-carbon leaders are practically invisible to fish even in the clearest of waters, as the base material has almost the same refraction index as water. It is also relatively stiff and particularly suited to tying so-called stiff rigs.

RADICAL LEADCORE

When it comes to outwitting wary carp, Leadcore is the perfect leader material. With its lead core, the material nestles neatly on the bottom. This eliminates the chance of fish being spooked by a raised leader before taking the bait.

CAMOUCORE

Radical now presents a Camou version of its leadcore to adapt to different conditions and increasingly wary carp. The stiff and robust material has excellent anti-tangle properties, ensuring the last metre of fishing line is presented optimally and completely on the bottom.

CYBER CRRx BITE ALARM SET

The bite alarm that sounds in a new era. Cyber CRRx bite alarms are the first to feature optional LED colours. Furthermore, the strategy of our R&D engineers was not only to achieve optimal functionality, but to set a new benchmark for design and presentation. We are more than impressed with the result, which we are sure you will feel the same.

The set features 3 radio bite alarms and one receiver (each supplied with batteries). Also provided is a complete set of replacement batteries, the correct size screwdriver and – as a unique bonus – an alternative set of sample cases in camouflage design. The transport case has space for a fourth bite alarm where required for major trips.

LINE DIVER

On a drop-back bite, the Line Diver dives down deep and so causes every bite to be indicated. The head incorporates a clip design that holds the line securely without damaging it but releases the line cleanly on every run. The head also has a night-glow function that emits bright colours on even the darkest of nocturnal carp sessions. A 2 oz, continuously adjustable stainless steel cylinder slides along the shaft, ensuring that every bite is seen and heard even when fishing at long range.

GIGANTICA

The name says it all: We have forged our masterpiece. With the new flagship from the Radical house, the angler is armed for every situation. The Gigantica pod has been developed for professionals who fish the largest reservoirs in southern Europe and North Africa. However, the pod also shows its prowess on the major rivers of continental Europe, such as the Rhine, the Ebro, the Po and the Rhone. When it comes to using a reliable high pod, the two-metre Gigantica is the optimum choice. Our team and test anglers, such as Stefan Seuß, Benjamin Gründer and Robin Illner tested the pod for over two years on the water and tried everything they could to take it beyond breaking point. They failed! The pod is a machine, standing up to any conditions. Material: Aluminium. Accessories: Rod Pod Bag, extra-long pair of legs.

CODE	MODEL	WEIGHT
8402 025	Gigantica	3.70 kg

FREESTYLE

Freestyle means to go your own way, which can often be the key to angling. For those anglers with foresight, who fish on numerous different waters, we have developed the four-legged Freestyle pod. The pod is equally suited to both extreme river fishing and long-range sport. With its simple yet solid screw attachments, the rod pod is ready to roll in no time and packs away just as quickly. A true all-rounder. Material: Aluminium. Accessories: Rod Pod Bag.

CODE	MODEL	WEIGHT
8402 022	Freestyle	1.85 kg

CONTINENTAL

The Continental is our super-lightweight that packs a mighty punch. The rod pod has been specially developed for domestic trips as well as fishing on lakes and moderately fast-flowing rivers and canals. The screws and fasteners are solid, the performance is outstanding. With its three legs, the Continental has bombproof stability, never moving from its spot. The pod is the optimum choice for those wanting to set up spontaneously and successfully at the water for big carp. Material: Aluminium. Accessories: Rod Pod Bag.

CODE	MODEL	WEIGHT
8402 020	Continental	2.65 kg

GUARDIAN

The appropriately named Guardian fulfils its role more than faithfully. Your rods will rest on the buzzer bar with incredible stability. Wind and weather have no effect on the Guardian pod. The Guardian is highly versatile and can be converted from a flat set-up to a high pod in a matter of seconds. Instead of the usual three legs, we have designed the Guardian pod with four legs for even greater stability. This pod offers reliable protection for your rods, reels and bite alarms, even in storms and wind. We have tested the pod extensively and are convinced of its performance. Why not convince yourself? Material: Aluminium. Accessories: Rod Pod Bag.

RADICAL BAGS & HOLDALLS

The development task was clear: To design reliable bags to accompany the ambitious carp hunter throughout Europe for many years! The Radical Team, led by Robin Illner, Stefan Seuß and Benjamin Gründer, say that the bags passed the test with distinction. The new bags and holdalls are extremely hard-wearing and thoroughly designed down to every last detail - they also look great! Modern equipment for the modern angler.

CODE	MODEL	SIZE

RADICAL DESPERADO BS HOLDALL

Our new Desperado Big Session Holdall provides enough space to transport four rigged up rods to France or Italy. There is even additional room for a further two unrigged rods. The Holdall is a veritable storage miracle. The four rods are no longer packed next to each other but at a 180-degree rotation. This gives the holdall the capacity of a 2+2 holdall, which means it can always fit into even small cars. The robust, thickly-padded side walls and central protective wall ensure your valuable rods are optimally protected. The durable outer pocket also features additional compartments for banksticks, a large umbrella, landing nets and much more besides.

CODE	MODEL	SIZE
8511 002	Protection Holdall	2.10 m

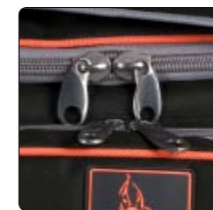

RADICAL PROTECTION HOLDALL

High quality rods deserve the best protection. The Radical Protection Holdall offers precisely this: the rods lie cosseted and protected in an extra-thick foam layer as if a precious baby. Thanks to its durable 600D material, the outer skin protects rods completely from rain, dust and dirt. The holdall is finished with super-thick zip fasteners and metal rings. Top quality for top rods!

RADIAL SOLO SLEEVE

Our thick padded solo sleeves protect any rod safely and reliably against damage. Individual bags can be convenient and hugely practical at times. What angler hasn't had the problem of the car being packed up to the roof? Individual holdalls can be easier to find room for than conventional large multi-holdalls. Available in 3 different lengths for all rod sizes.

RADICAL COMBAT BAG

With this bag, the carp angler is fully prepared to go into "combat" with the carp. The metal shoulder strap rings guarantee a long life. The bag's base is 100% waterproof while the zips are heavy-duty. One pocket on the front and three on the side complement the amply large main section to provide enough storage space for long trips.

- Includes free large tackle box

RADICAL CUBE BAG

The Cube Bag is the little brother of the Gigantica Bag, but no less strong. This bag has metal fittings throughout and the base incorporates a waterproof floor. The Cube Bag is ideal for terminal tackle, clothing and accessories as well as scales and baits. For added storage space we've added two side pockets and an extra front pocket. The Cube Bag is the ideal travel companion for both short and long sessions and also looks pretty cool!

RADICAL DRY BAG

Carp fishing in extreme conditions is not unusual for hard-core specimen anglers. Whether at home or on the big lakes and rivers of Europe and beyond; whether in a tent during rain or in a boat, the Dry Bag keeps everything dry. Clothing, expensive video and photography equipment and food are literally kept as "dry as a bone". No avid carp angler's equipment is complete without a 100% waterproof bag.

RADICAL GIGANTICA BAG

Big, bigger, Gigantica! That is the best way we can describe our "monster" from the Radical bag range. Designed to take anything and everything you need to the water whether gas cookers, sleeping bags, tackle bags, rig cases, food or an umbrella overwrap... The Gigantica is not just big, it's also incredibly strong. The metal shoulder strap rings guarantee a long life. The base is 100% waterproof while the zips are all heavy-duty. Complete with two side pockets, two front pockets and an overlap to protect the zip from rain.

- Includes free tackle box and rig board!!

QUANTUM BIVVY

After a long development project, we are proud to offer session anglers a truly remarkable tent, which stands out above the competition with a number of outstanding features:

1500 mm water resistance

- 140 cm x 240 cm x 180 cm (H/W/D)
- 420 Denier Nylon
- 100% waterproof and wind-proof material
- sealed seams
- easy and quick to erect
- robust glass-fibre rods
- removable groundsheet
- transparent window in entry door
- front part can be rolled up to the side so that the tent becomes a half-open storm shield (important on waters where enclosed tents are prohibited)
- various options for pegging down, standard tent pegs supplied

RADICAL MEGA STORM BROLLY

Modern carp fishing sometimes requires the angler to be mobile and move spots quickly. But even for the "one-night stand" angler, who goes carp fishing after work, the Radical Mega Storm Brolly is hugely practical. The umbrella is quick to put up and take down and protects both the angler and expensive equipment from even strong rain and wind. The umbrella can comfortably shelter a bedchair and equipment. Supplied with two strong banksticks. Separate overwrap available for really bad weather or more protection. Including 2 Storm poles 60 cm and 2 Storm poles 120 cm.
