

QUANTUM[®] Sea

TRIED AND TESTED FOR SEA ANGLERS.

The name Quantum has long been an institution in sea angling circles. Quantum Sea Gear stands for uncompromising tackle, developed for use in the rugged conditions of the sea. Naturally, the brand includes the highly respected, tried and trusted seawater proof Quantum reels. However, it also encompasses an impressive and diverse range of sea fishing rods, comprising both beachfishing and boatfishing models as well as special rods for inshore spinning. A selection of special accessories completes the successful package.

Throughout the product development, our engineers were supported by a team of experienced test anglers with countless championship titles between them. Their specialist knowledge is a guarantee that Quantum tackle can be relied upon implicitly in every situation, allowing you to enjoy the spirit and adventure of sea angling to the full.

WORLD CHAMPION SURF

Perfection takes time and through constant development you can really improve a product. Quantum has gone a step further with the new World Champion Surf. The perfect fighting machine for the surf angler who is only satisfied with the best of the best. The long cast spool enables maximum casting distances. With an incredible 12 ball bearings the gears are immense in their strength, enabling the angler to fight fish for hours or reel in rigs for bait checks without tiring. The line distribution is also of the highest standard allowing the thinnest braids to be used and flow effortlessly from the spool.

STANDARD FEATURES

- Flat, perforated surf long cast aluminium spool
- Deep spare spool available
- 11 high performance stainless steel ball bearings and 1 needle bearing
- Continuous anti reverse
- Gear ratio 4.6 : 1
- Balanced rotor, producing silky smooth action
- Large surface front drag
- Ergonomically designed handle knob for optimal power transfer
- Robust power gears
- Inner ball arm stop

Q 97

SMART MOTION SURF

Top surf reels do not have to cost a fortune, the Smart Motion Surf is proof of that. The model offers a high degree of functionality. In addition the optimised long cast spool, the powerful transmission and ergonomic handle knob are bound to impress. High resistance to saltwater is an essential feature of the model.

STANDARD FEATURES

- Flat Surf long cast aluminium spool
- 6 high performance stainless steel ball bearings
- Continuous anti reverse
- Balanced rotor, producing silky smooth action
- Large surface front drag
- Ergonomically designed handle knob for optimal power transfer
- Robust power gears
- Spare spool

SMOKE INSHORE

Perfect mid-sized spinning reels for sea anglers – whether for bass, cod or sea trout. The special production methods and materials ensure extreme corrosion resistance even with frequent use in the marine environment. Anglers wanting the best really need to see and try these models to appreciate the combination of lightness and stability offered by Exo and Smoke reels. The reel is available in the most popular sizes 40 and 50.

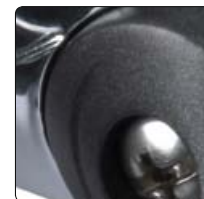

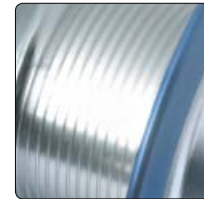

STANDARD FEATURES

- 9 precision ball-bearings plus 1 needle bearing in stainless steel
- Skeleton housing in highly salt-water resistant aluminium, with Saltguard 2.0 coating
- Over-sized perforated aluminium Long Stroke™ spool
- Rotor in C4LF™ Carbon
- Nickel-titanium bail arm
- TRU-BALANCE® handle
- Finely adjustable, protected CSC™ front drag system (carbon drag discs)
- Salt-water resistant continuous anti-reverse
- Large line guide with anti-twist system.
- Foot Forward™ reel foot for better rod balance
- Two-speed oscillation system
- Titanium nitride line roller

MANIAC® FD

A medium sized fixed spool reel with front drag for all round sea fishing, which will be of interest to a vast number of anglers. With a deep aluminium spool to accept larger line volumes. The S-curve oscillation system guarantees optimal line distribution and is far from a standard feature in this price segment. Available in three sizes: #40, #60 und#70.

STANDARD FEATURES

- Deep aluminium spool
- 3 high-performance stainless steel ball bearings and 1 needle bearing
- Continuous anti-reverse
- Balanced rotor, producing silky smooth action
- Large-surface front drag
- Ergonomic handle knob for optimal power transfer
- Robust power gears
- Spare spool

TORRENT

As blue as the ocean – an affordable sea fishing reel in five sizes covering all major types of angling. Built with an indestructible nylon housing and metal components for optimum power and long life. We are confident that this model from Quantum US will be a popular best-seller for saltwater fishing in Europe.

STANDARD FEATURES

- 2+1 ball bearings
- Anodised aluminium spool
- Continuous anti-reverse
- S-curve line distribution
- Robust nylon housing
- Powerful multi-disc front drag system
- CNC metal reel handle

#40-50 available from March 2013

#60-80 available from December 2012

STANDARD FEATURES

- 7 precision ball-bearings plus 1 needle bearing in stainless steel
- Hybrid ceramic bearings in areas subject to particular stress
- SCR aluminium alloy for the body, multi-coated with Saltguard™ 2.0
- SCR aluminium alloy for rotor (60 and 80), carbon composite construction in size 40 and 50
- Salt-water resistant continuous anti-reverse
- Specially hardened Quantum PT gears
- TiMag ® magnetic bail arm flip and nickel titanium bail arm
- Aluminium Long Stroke™ spool
- Finely adjustable, protected Magnum CSC™ front drag system (carbon drag discs)
- Powerful handle
- Large line guide with anti-twist system
- Foot Forward™ reel foot for better rod balance
- Two-speed oscillation system with LMS™ line distribution
- Titanium nitride line roller

CABO

This legendary sea reel range has undergone a complete redesign. The main objective was to reduce the weight slightly without making any sacrifices when it comes to rigidity. In doing so, the Quantum reel engineers even managed to improve the performance of drag. In internal tests, the reels delivered up to an incredible 70 lb of drag pressure. All the more reason for sea predators to fear users of Cabo reels.

BOCA

The Boca has also undergone a complete redesign in tandem with its sister the Cabo. The reel is developed in accordance with the same extreme-performance reel concept as the Cabo. Like the Cabo, the Boca is available in four sizes up to size 80, which is even used for light big-game sport thanks to its extreme performance capability. The test anglers appreciated the high-performance gears and powerful drag that refused to buckle even under the hardest stress tests.

WORLD CHAMPION SURF III

HYPERCAST XT SURF

SMART SURF MOTION

WORLD CHAMPION SURF III

For years, the sea angling scene has sat up and taken notice whenever Quantum launches a new World Champion Surf. The latest "Surf III Unlimited" version is sure to be an instant hit, offering even greater performance than its predecessors. The acceleration is sensational while the powerful backbone won over the test anglers immediately. The ring configuration enables "world class" casting distances with both monofilament and the increasingly popular braided lines.

HYPERCAST XT SURF

Those anglers who want to graduate from the level of "occasional angler" and intend to pursue beach fishing seriously would do well to check out the Hypercast XT Surf. The stiff carbon fibre blank is as impressive when casting as it is when playing monster fish. A genuine workhorse for inshore fishing fans. Perfectly suited to weights of up to 200 grams but can accommodate weights up to 250 g.

SMART SURF MOTION

In the price bracket between the Hypercast XT Surf and the Zebco Satanica Surf we now offer a Smart Surf Motion. A strong carbon fibre construction and relatively slim blank enable comfortable handling and excellent casting properties. Playing a fish with this rod is absolute child's play.

WORLD CHAMPION MAGIC JIGGER

HYPERCAST BAY HUNTER II

BASS BASHA

MAGIC SEA TROUT

MAGIC COD

All rods

WORLD CHAMPION MAGIC JIGGER

Deep-sea fishing for cod and similar demands the qualities of this extraordinary rod: strong enough to force even monster cod to the surface. And yet it is the lightest and slimmest Jigger rod that Quantum has ever produced and launched.

HYPERCAST BAY HUNTER II

Light sea rod with average casting weight. Suitable for light plaice and cod angling. The robust blanks will also withstand the occasional knocks that inevitably happen when boat fishing.

BASS BASHA

Top spinning rod for use on the shore or beyond, with extremely quick and stiff action. Ideally suited for launching wobblers, rubber baits and spoons long distances into the wind. Sure to win many friends among bass anglers on French and English shores as well as in the Mediterranean. Also a great weapon in Nordic regions with ergonomic handle and fascinating blank colour.

MAGIC SEA TROUT

Sea trout anglers trying their luck for these sought after coastal gems are an increasingly common sight on beaches today. The key is often to cast the spoon or Sbirolino far enough to reach the fish. What the angler needs is a casting machine like the Magic Sea Trout! Available in two different versions with attractive sea trout design.

MAGIC COD

Baltic Sea cod fishing continues to enjoy great popularity, whether from a small boat or cutter – piking and jigging are widespread. And with our Magic Cod rod series you have nothing to fear from the larger specimens. On the contrary, these rods have sufficient power to reliably bring monster specimens to the surface. Also available in a 345-cm-long cutter version by popular demand.

Extremely strong blanks in nanocarbon

BLU TUNA SPIN

Dozens of seagulls fly screeching above the water as thousands of terrified sardines leap out of a boiling sea...this is pure adrenaline. And the tuna engage in an insatiable feeding frenzy. In recent years, this has become an increasingly common spectacle in the Mediterranean and spinning for feeding tuna has become one of the hottest fishing methods. Quantum Blu Tuna spinning rods have been stretched to their limits in endless rounds of testing. And the result is simply fantastic. The extremely powerful blanks in high modulus carbon are ideal partners for breaking the resistance of tuna. At the same time the tip section is sufficiently progressive to punch out stick-baits and hard lures effortlessly. The handle has been optimally designed to ensure the best possible handling during the fight. Fitted with Fuji rings. With the new Blu Tuna Spin, you are ready for the ultimate adventure.

BLU SPIN

Saltwater spinning is becoming increasingly popular – the combination of surging waves and lively predators offer a fantastic adventure. Quantum is always ready for new challenges and the new Blu Spinning range for saltwater fishing is sure to attract the interest of many ambitious, forward-thinking anglers all over Europe. The range stands out with its ultra-light blanks with fast and medium-fast actions in high-quality carbon fibre and a variety of lengths. All components are carefully selected and corrosion resistant. The rods also impress with their modern look. Yet again, Quantum has proven its expertise when it comes to developing outstanding spinning rods.

CRYPTON TX SURF

With its super slim blank, this telescopic surf rod is both extremely light and powerful at the same time. The extra long handle has been developed for the most ambitious casters. The super fast action can cope with casting weights up to 170g. Perhaps the best rod we have ever offered for surf angling in the Mediterranean for sea bream and sea bass.

HYPERCAST TELE SURF M 1

A functional telescopic all-round surf rod with an incredible price performance ratio. Very light in the hand, perfectly balanced and with an ambitious design that will give even entrants into this area of angling technology a modern look. Perfect for all forms of surf angling with a reliable blank that will give the angler countless moments of pleasure.

CRYPTON MANIAC® TELE

The main advantage of this telescopic boat rod is its incredibly slim blank relative to the power it provides. The special design represents a perfect synthesis of an ultra sensitive full carbon tip with a highly fast and stiff action throughout the rest of the rod. Ideal for boat fishing, particularly at great depths.

CRYPTON MANIAC® SENSI BOAT

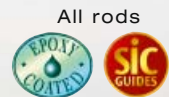

Lightweight telescopic rod for sea angling in the Mediterranean. The slim, carbon-fibre blank of the Maniac® Sensi Boat makes angling a pleasure for hours on end. Supplied with two interchangeable, highly visible tips for sensitive bite indication.

MANIAC® INCANTO PRO

MANIAC® INCANTO ST

MANIAC® INCANTO XP

MANIAC® RODS

The most popular angling method in the Mediterranean is fishing from a boat, whether with livebaits or artificial lures. The quarry are those species that do not come close enough to the shore. Fishing successfully from the boat requires a range of specialist rods tailored to the various target fish and water depths. It is with this in mind that the Quantum engineers developed the Maniac® range.

MANIAC® INCANTO PRO

What a beautiful name... what a beautiful range of rods! The Maniac Incanto rods are the ideal choice for light boat fishing when you need optimal bait control and sensitive bite indication to detect even the most cautious takes. The Incanto Pro has been developed with high modulus carbon and an innovative manufacturing process to deliver the thinnest blank possible at a very affordable price.

MANIAC® INCANTO ST

Complete range of rods for a wide range of uses from the boat. With their very light action and sensitive glass-fibre tips, these rods are sure to fulfil all requirements of Mediterranean sea anglers. The rods are very light and well balanced in the hand and the variety of lengths cover all major uses. When shopping on a budget, the Incanto ST means the angler can still afford a technically refined partner.

MANIAC® INCANTO XP

Light range of rods in the two most popular lengths for targeting mackerel with live baits or small lures on a paternoster rig. Particularly interesting in the longer lengths for fishing from big boats when you need to hold the paternoster rig in the feeding zone.

MANIAC® TALENTO ST

MANIAC® TALENTO PRO 2.0

MANIAC® TALENTO PRO

Most of the time fishing is a matter of skill...you have to have talent! The Maniac Talento Pro is the perfect choice for all anglers who want to experience real Bolentino fishing in the Mediterranean sea. Available in a complete range of lengths to cover all fishing conditions. Thin blanks made of high modulus carbon with highly sensitive solid carbon tips.

MANIAC® TALENTO ST

The boat rods that are always ready to fish. These short-section rods are very easy to transport or store on your boat. The actions have been carefully tested to fulfil the requirements of anglers who need to fish in medium depth water (50-70 metres). Outstanding price-performance ratio.

MANIAC® TALENTO PRO 2.0

A telescopic range of rods in two lengths without rings or reel holders allowing the angler to customise them optimally to suit prevailing conditions. The perfect rods for fishing from big boats or cutters. Extremely light weight thanks to the high proportion of high modulus carbon.

MANIAC® FURIA PRO

MANIAC® FURIA ST

MANIAC® FURIA XP

MANIAC® FURIA PRO

Furia rods are the optimal choice for heavy-duty, deep fishing from boats. The conical blank allows the Furia Pro to deliver an abundance of power. Made in two sections with two interchangeable tips offering different casting weights. Extremely strong and reliable with a very light weight. The 300/500 version also has an adjustable extension to cover a range of eventualities with a single rod.

MANIAC® FURIA ST

Two-piece boat rods with two interchangeable glass-fibre tips. The extremely conical blank delivers incredible power combined with a tip that delivers the required sensitivity. The typical multi-purpose rod for light jigging, light trolling or heavy live-baiting from the boat with up to 200 g leads in the deep water of the Mediterranean. Extremely good price-performance ratio.

MANIAC® FURIA XP

When fishing from big boats for mid-water sea predators, it is essential to use very long rods (4-5 metres) with sufficient strength to quickly overcome your quarry and bring it to the boat. The Furia XP has been designed precisely for this purpose. Very strong but flexible enough to play any fish. These rods are also supplied without rings and holders, allowing the angler to adapt them perfectly to requirements.

QUANTUM ENERGY SEA LEADER

Sea and deep sea anglers require a special leader material in thick diameters. We have designed the Energy Sea Leader monofilament specifically with them in mind. Stored on a spool, the high diameter leader barely kinks at all. Its stretch properties also offer the sought after absorption effect in the rig either on the cast or while playing the fish. The glass-clear finish minimises suspicion from those wary fish.

CODE	Ø	BS	BS	LENGTH

Colour: clear · Trade unit = 6 spools

TAPERLINE

The line for surf fishing. With a length of 220 metres and strength of 0.57 mm diameter, this is the real professional line for distance surf casting. This line is characterised by its exceptional knot strength, good carrying capacity, flexibility and abrasion resistance and by the coloured marking of the line after 25 metres.

CODE	Ø MM	LENGTH

Trade unit = 10 spools

FLUORO CARBON SEA LEADER

Special leader material in fluorocarbon in thick diameters. Does not curl permanently when stored on a large diameter spool. Almost invisible thanks to the refraction index that matches that of the water, so that cautious sea dwellers do not suspect a thing.

CODE	Ø MM	LENGTH	BS
2616 050	0.50	50 m	30 lbs
2616 060	0.60	50 m	40 lbs

2616 090	0.90	50 m	80 lbs

Trade unit = 6 spools

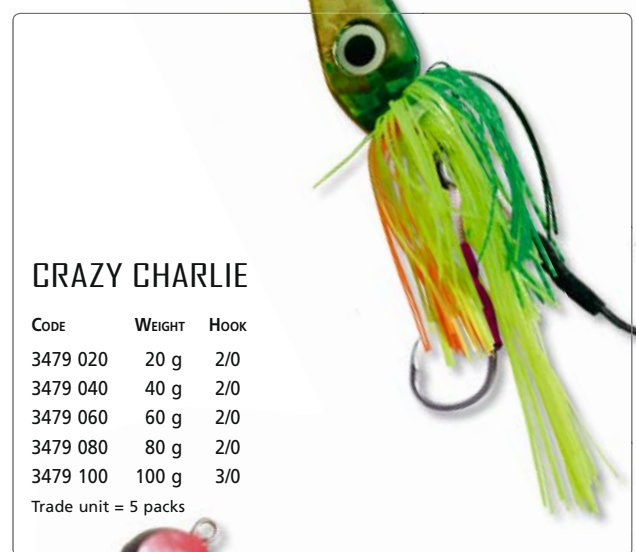

NEEDLE LURE RIG

Pre-made rig with a Needle Lure Jig with two hooks. This perfect imitation of a needle fish (a small variety of the garfish) is widely used for light trolling in shallow waters to outwit mackerel. Also useful for sea bream, small tuna and other mid-water predators.

OCTOPUS TROLLING LEADER

Highly attractive leader with three ready-made octopi. One central and two side arms to increase catch-rate. Simple yet highly successful system for all mid-water predators when light trolling near to the coast. A particular plus is the soft octopus body which raises no suspicion at the moment the fish bites.

FEATHER HEAD

Weight head lure with glimmering, long and super soft holographic threads in ultra-high quality. Perfect imitation of anchovies which, when light trolling in the Mediterranean, should be trolled up to 50 metres behind a boat at around 6-7 knots. Small tuna, bonito, mackerel, sea bream and sea bass are the target species.

KVEITE LURE

This big rubber shad has been specially developed for targeting large cod and halibut in Norway and off Iceland. Together with our test team led by Sascha Hausmann and Sven Weide, we have continually refined this lure in recent years until it far exceeded the original requirements. The range includes a number of special colours that proved the most effective in extensive comparative testing. The greatest advantage of the Kveite Lure is the tail treble (stinger) that converts significantly more bites than other lures.

SEA BOSS LURE

A dream for sea anglers! A huge XXL-sized rubber fish lure measuring 23 cm in length with two ultra-robust hooks and integrated lead weights. With its plummeting action, the lure is extremely lively, even on the slowest retrieves. Sea Boss also comes with attractive decoration, guaranteed to catch the attention of halibut and similar.

PLIERS

The pliers have an ultra-sharp line cutter especially for monofilament and braided lines. The powerful arms of the forceps allow the angler to firmly grip and remove the hook. Particularly important is the opener that has been designed for fast and safe opening of snap rings.

CODE	SIZE
6410 008	20 cm

WORLD CHAMPION ROD POD

New surf rod pod with an extra touch of class: incredibly robust with a firm footing and, naturally, corrosion-resistant. With one particularly practical feature: the front rod rests and rear rod holders are made from phosphorescent plastic. When held under a torch, these glow for hours on end helping the angler enormously when finding his/her way around in the dark.
