**Topic Chaser**

Modern rear drag reel that meets all the requirements of the market. The smooth gears with 5 ball bearings and continuous anti reverse speak for themselves. Everything is packaged in an extremely sleek design that suggests a far higher price than the actual cost of the reel. Perfectly suited to all forms of light to moderate legering and spinning.

Satanica

### Satanica RD

The sister reel of the Satanica FD with rear-drag as still demanded by many anglers. The engineers have succeeded in creating a finely adjustable drag effect that closely resembles a high-performance front drag. When it comes to staying put for an all-day session, the Satanica RD is sure to be a popular choice.

# Satanica

## Satanica Rods – devilishly light and hellishly strong!

A range of rods with the highest standards in aesthetics, price and, above all, quality! Our developers set themselves the objective of producing a rod range which is both extremely robust and incorporates the latest technology in the blank. All rods in the range sit comfortably in the hand, load up fantastically on the cast and have sufficient backbone to stop fiery opponents in their tracks!

### Satanica Tele Track

A mid-range telescopic rod in the three most popular lengths. The compact design allows the rod to be stored away easily and set up quickly whether on local waters or on holiday.

1010 350	3.50 m	6	10-60 g	1.10 m	380 g

### Cool Trolling

Trolling is becoming increasingly popular, as more anglers venture into this style of fishing. The soft fibreglass blank is ideal for this type of fishing. The Cool Trolling is finished with a gimbal as standard as well as epoxy sealed ring connections.

Code	Length	Sections	C.W.	Tr-Length	Weight
1432 240	2.40 m	2	30-70 g	1.28 m	292 g

### King Kayak

Short specialist rods with a robust fibreglass blank for fishing from a kayak. With a short length, the relatively soft action is essential to guarantee sufficient cushioning during the fight. The ultra-powerful tip of the King Kayak allows baits to be cast out over long distances despite the short rod length. The low test curve should therefore cause little concern: this rod will tame powerful predators such as pike or bass. Available in blue and black or pink and black.

Code	Model	Length	Sections	Testcurve	Weight
1050 075	blue-black	0.75 m	1	12 oz	92 g
1050 100	blue-black	1.00 m	1	12 oz	110 g

2037 040	0.40	12.7 kg	245 m

**Catfish**

The greyish green camouflage has been tuned to the habitat of these large beasts. In order to be sure of landing these large fish the line must have maximum breaking strain, an abrasion resistant surface, maximum knot strength and still remain flexible.

Code	Ø/mm	BS	Length
2032 040	0.40	12.7 kg	240 m

2027 035	0.35	9.2 kg	245 m

**Pike**

The TOPIC PIKE camouflage is as green as the covering of water plants. Minimum stretch is a must in order to accommodate the consistent lifts, even at a distance.

Code	Ø/mm	BS	Length
2033 025	0.25	5.0 kg	540 m

2033 045	0.45	14.9 kg	180 m

**Zander**

The order of the day when catching the shy zander is to have a soft, supple and knot tight line. The excellent abrasion resistance means that even zander can be caught without problem and without a KEVLAR cast.

Code	Ø/mm	BS	Length
2039 022	0.22	4.2 kg	540 m

2039 032	0.32	7.5 kg	450 m

**Gilt Head**

With its brilliant florescent colours its high visibility is perfect for fishing either in fresh water or on the shore. Its special coating will allow you to cast greater distances.

Code	Ø/mm	BS	Length
2026 030	0.30	6.9 kg	450 m
2026 035	0.35	9.2 kg	315 m
2026 040	0.40	12.7 kg	240 m

**Bass**

This line had to be designed tough, with a low elasticity coefficient in order to absorb the very powerful movements of the bass during the fight. Features extremely high knot strength. Its light blue colouring makes it practically invisible in the water.

Code	Ø/mm	BS	Length
2025 030	0.30	6.9 kg	450 m
2025 035	0.35	9.2 kg	315 m

**Trout**

A trout line must cope with all situations. It provides the best bait control through its softness and suppleness. Absolute flexibility is essential for these jumping and powerful salmonides. The smoke grey colour of the TOPIC TROUT means that it is adapted to any type of water.

Code	Ø/mm	BS	Length

2038 028	0.28	5.9 kg	500 m
2038 030	0.30	7.5 kg	450 m

**Cod**

In order to raise cod from the deep, the line must have optimum characteristics with respect to stretch, breaking strain, knot strength and abrasion resistance. The lure guide is now even more visible because of the yellow colouring.

Code	Ø/mm	BS	Length
2035 040	0.40	12.7 kg	245 m
2035 045	0.45	14.9 kg	180 m

**Surf**

A pearly effect line with all the characteristics required for sea fishing. It is almost totally invisible in the water - a real advantage when preparing rigs with multiple knots which are generally fairly visible to the prey.

Code	Ø/mm	BS	Length
2023 030	0.30	6.9 kg	450 m

2023 045	0.45	14.9 kg	225 m

**Topic Boat**

Special sea fishing line whose transparency makes it almost invisible to fish when underwater. The line is also abrasion resistant and protected against the effects of UV rays. Its excellent stretch qualities minimise losing fish while bringing them to the bank.

Code	Ø/mm	BS	Length
2040 040	0.40	12.7 kg	300 m

**OMX Braid**

Interwoven braid that has been extremely tight knitted, made of UHM polyethylene. With demanding load capacities and super elongation this braid can easily be mistaken for products of much higher price. Ideal for the many disciplines of modern day spin fishing or sea angling. The braid colour provides excellent camouflage to unsuspecting fish, that can only be an advantage to an angler. Topic OMX Braid - The line for the ambitious angler.

**Jigs**

When fishing for cod jigs play an increasingly important role, while the lure itself is often used only as a weight and fishing often even takes place without a hook. The best two colours over the last few years have been red and black. Most recently it has been established that a combination of both colours brings the best results. One special tip for experts is the colour green glitter.

### River Twin

With this tandem design both spinners sit on one mounting. This means that they constantly flap against each other during the retrieve and the resulting sound waves irritate predators into launching an attack. Excellent for zander and perch.

Weight	Length	silver	red	yellow
8 g	5.0 cm	3079 001	3079 101	3079 201
12 g	6.5 cm	3079 002	3079 102	3079 202
18 g	7.0 cm	3079 003	3079 103	3079 203

### Pike Sweeper

There are few spinners designed specifically for pike fishing. The Pike Sweeper is one of them. The heavy weight, the large spinner and the extra portion of feathers and hairs on the treble make this the ultimate pike lure.

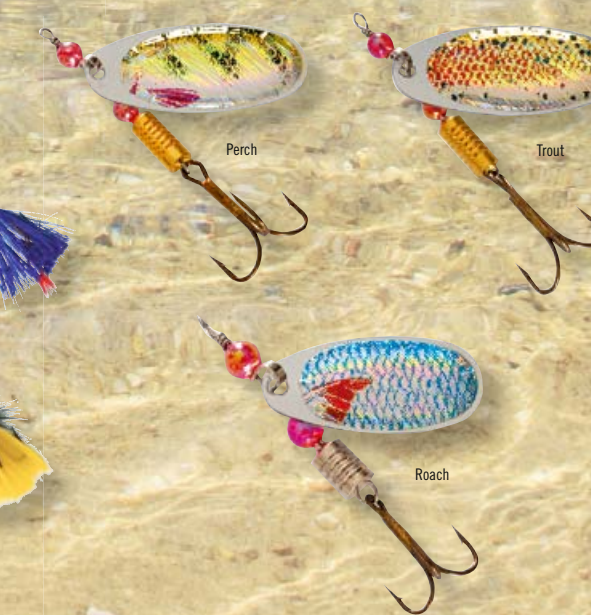

Weight	Length	red	blue	chartreuse	green
22 g	12.0 cm	3408 022	3408 122	3408 222	3408 322

### Prey Runner

A spinner with a classic blade shape and three natural designs with holographic highlighting. So enticing that tremendous catches are possible even in heavily fished waters. Also very special: the excellent price performance ratio.

Weight	Length	Size	Perch	Roach	Trout
3 g	4.0 cm	1	3070 001	3070 101	3070 201

IN PACKS OF 10

### Tenabra Spinner

Large pike spinner with striking marabou tufts on the hook. Heavy enough to cast over large distances and with a spinner body that emits powerful pressure waves. Predators find this lure simply impossible to ignore.

Weight	Length	copper	gold/red	black/gold
26 g	8.0 cm	3404 001	3404 002	3404 003

IN PACKS OF 5

### Spectrum Spinner

Irresistible spinner in the Scandinavian tradition with a relatively heavy body and a lightly rotating spinner blade. As a particular attraction, the Spectrum Spinner is fitted with a feather hackle on the hook as an additional temptation for predators.

Weight	firetiger	copper-red dots	black-red dots

IN PACKS OF 5

### Pro Blade Spinner

Perch and timid specimen trout in particular find the Pro Blade Spinner irresistible. The pressure waves of the spinner blade create an incredibly attractive effect underwater, inciting even cautious fish to launch spectacular attacks. Attractive decoration and needle-sharp trebles complete the Pro Blade Spinner's package of attraction.

**Angling Bucket**

With filleting board and drip mesh. Clever inventions for clever anglers: You can either put your catch straight into the bucket or simply fillet it immediately on the lid board. The mesh in the bucket allows the fish or fillet to drip without it lying in its own juice. At 51x25x27 cm the bucket has a big capacity to cope with most fish.

3978 103	Roach	12 kg
3978 104	Feeder	12 kg

1 bag per 12 kg, Trade Pack = 3 sacks

(Displays and sacks are not to be mixed to make up trade packs.)

### Selection Carp

Rough textured, yellow feed with lots of particles. Keeps the carp in the feeding place for longer periods.

### Selection Bream

Sweet, red feed with medium grain size. Hardens effectively when combined with water, and therefore well suited for flowing waters. If using on canals only moisten lightly for rapid break-up.

### Selection Roach

Dark feed with high percentage of Coco grain. The dark tone makes the feed almost invisible on dark grounds, ideal for attracting roach.

### Selection Feeder

Fine, light brown ground feed with low binding properties and 20% corn particles. These form a carpet on the surface after the feed dissolves, which keeps the fish close by for longer periods.

### Amorce Mullet

Mullet groundbait that proved its effectiveness time and time again in testing. Anglers will particularly appreciate the perfect grain size, shrimp flour aroma and perfectly-matched colouring.

### Amorce Friture

Small fish groundbait that can either be used very wet or half-dry. This allows the angler to create an attractive cloud according to his own preference. With refined spicy note and fine basic ingredients that attract fish without filling them up.

### Amorce Fond Mer

Classic groundbait for attracting sea bream and other sea fish species. The shrimp flour provides a strong attraction while the perfect binding gradually creates an alluring cloud in the feed bag.

### Amorce Etang

Amorce Etang was developed for fishing lakes and slow flowing canals. With its light brown colour it provides a subtle contrast to the ground without scaring off the fish. Without being too sticky it can still be formed into balls, which quickly dissolve once they sink to the lake or canal bed. The combination of Coprah Melasse and the most famous French attractant provides this bait's very special and truly unique character, this will translate into higher catch rates. Grain Size: medium; Colour: light brown.

### Zebco Vacuum System

In conjunction with Cofresco (Toppits, Albal), Zebco presents the Zebco Vacuum System, exclusively for the fishing tackle market. The range comprises of three different-sized Zip-Loc bags that can be vacuumed. Air is extracted from the bag without the need for expensive special equipment that often requires an electrical connection, and the vacuum is maintained without welding the bag. Every bag is fitted with a patented valve in one corner to which the ergonomic hand pump is attached. Once the bag is filled, the air is removed by a few strokes of the pump. Besides the user-friendliness, the bag's re-usability gives it a massive advantage over standard vacuum products. Suitable for freezing fish as well as keeping boilies fresh for significantly longer without freezing. Items that need to be kept dry, such as fishing licences, can also be vacuumed packed in an instant. Available in three bag sizes: 1L, 3L and, exclusively from Zebco, the 6L long bag, suitable for small to medium-sized filets sized 22 x 65 cm. Available in a self-service pack, each containing 5 bags, or in a bulk pack of 100 bags.

# ZEBCO CASH

A till solution for the specialist retail market.

With Zebco Cash, Zebco - IT are offering a comprehensive software solution for specialist shops. The program package shines thanks to its high degree of configurability and very fast processing speed. The program can be run from a standalone PC or on a network with each workstation being able to perform all desired functions.

The till function is the centerpiece of Zebco Cash and features all the functions of a modern scanner till paired with a high degree of flexibility. The complete till user interface can be configured by the user as they desire so that, for example, they can determine for themselves whether an amount is entered before or after the product or even if it is detected automatically from the number of characters input. Recognition of all current EANs and barcodes is, as with the use of PLCs (Product LookUp Codes), likewise part of the system.

In addition to the till functions, Zebco Cash offers the functions of a modern merchandise management system for managing customer, product and supplier data. Product data from the supplier can be read directly into the master data via an interface, thus eliminating the arduous task of data entry. Orders can be sent directly to the suppliers over the Internet and availability requests can be made directly.

Zebco Cash does not require any special hardware, rather it is based on current PC systems, which can be complemented in the till area with barcode scanners, till keyboards, till drawers, receipt printers and customer displays.

Zebco Cash features a very capable report and label generator, using which the user can export all output to their desired format (PDF, HTML, XML, Excel). The user can even format the layout of the output separately.

## Zebco Cash Compact

Zebco Cash Compact is ideally suited for trade shows and events. Fast, secure and easy cashing in a mobile environment.

Turn your Notebook into a fully-fledged Cash System including receipt printing, analysis and article maintenance. All without the need to install anything – just plug in the USB Stick and you are good to go.

Zebco Cash Compact is integrated seamlessly into the Zebco Cash merchandise management system. You can export all prepared data comfortably from the main program and all sales can be imported later for full analysis and data management.

## Zebco Cash SmartView

With Zebco Cash SmartView you always have your business under control.

Access important information with your smart phone via a detailed report consisting of all vital facts and figures.

You never lose track of turnover, sales and other developments, even when you are not in the shop – without additional cost or installation.
